WHOLESALE CATALOG

1938

**High Grade Seeds, Implements,
Fertilizers, Twines, and
Market Gardeners' Requisites**

Again we take pleasure in presenting you our annual catalog. It offers the leading varieties of vegetable seeds, selected and bred up to a high standard. The experience of most growers is that the best seeds are the most profitable seeds.

Great progress has been made in the development of better seeds by cross-breeding and continuous selections. Many new and improved sorts have been added to the list, and we hope to introduce other items in the years to come.

While a lot of care is used in the production of our seeds to supply you with the best stocks we also spare no effort to see that your order is filled correctly. When placing your order with us you can feel confident that:

All seeds have been carefully tested for germination.

Your goods will be put up by experienced men.

No finer stocks obtainable at any price.

A word of thanks to all those who have helped to make last year a success. We shall be pleased to serve you the coming season.
